Subject: Product needed..

Hello,

I know you are getting things back in order but the 2 items that I need RIGHT NOW are **labels for the homeopathic bleeder plus, and bleeder pills** . I am completely out of pills at this point.

If you have more **oxygenator** down there you can send me up 50 bottles

Mary has **EPM double kill** time line in place to send more tubes regularly. I currently have 76 tubes, so once you have office back together she can make them accordingly.

Further down the road.. (I wont need any of these until December)

Then if you want make enough for the year or two.

**Iron Sucrose
 Folic 5x
 Acetylcysteine**

If you want to start making Robaxin/Methocarbonal again 100ml let me know. Or anything else on previous email of potential products to make .

<u>Product</u>	<u>Size bottle</u>	<u>Year total sold</u>	<u>We Pay</u>
